7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

SWOT ANALYSIS OF THE COLLEGE

Strength:

- Healthy enrollment over the years
- Immense institutional goodwill in the state
- Consistent academic excellence over the years
- Very good synergy between stakeholders, management and the college
- More than healthy financial health
- Very good research ambience (more than 50% faculty are Ph.D degree holder)
- Modern ICT intervention
- Non-interference of political parties in academic and administrative matters

Weaknesses:

- Inadequate sanctioned faculty compared to enrollment
- Higher secondary classes remain attached to UG level (as a Govt. Policy)
- Basically a humanities and social college. Courses lack employable skill content
- Non restriction of admission considering the merit criteria owing to the lack of adequate number of Higher Educational institution and poor background of students
- Of necessity employ a large number of part time faculty.

Opportunities:

- Expansion into skill based, employable courses
- Educational manpower in the area
- Possibility to transform the institution into a PG Institution

Threats:

- Conventional course curricula
- General lack of opportunities / employability for Arts students
- Semester leaves little room for co-scholastic, skill based learning
- Being an extremist porn district, sometimes academic environment of the college badly affected.

8. Plans of institution for next year

1. The college will strive to maintain the tradition of good academic performance in the Gauhati University examinations.
2. Special efforts will be made for the development of ICT infrastructure in the college.
3. At least two National Seminars will be organized by the college.
4. As a part of research activities, the college will publish some books with ISBN.
5. For the development of community extension as well as inclusion programs will be initiated by different cells and comities of the college.
6. Efforts will be made for the development of sports and extracurricular activities that may bring all round growth to the students as well as the other working staff of the college.
7. Free Complete health check up camp for students will be arranged within the campus for monitoring health of the students.

FEEDBACK REPORT:

M.N.C. Balika Mahavidyalaya, Nalbari

Feedback- both formal and informal has been in place for many years now. Sensitivity to stakeholders is a priority with this institution.

We have a feedback format of point scale on scholastic aspects. The feedback papers are distributed to students. The updates are analyzed and appropriate action is taken. Particularly inputs on teachers are informed about the feedback usually orally to avoid any hurt and advised corrective action.

The grievance redressed mechanism takes care of the day to day inputs from students, faculty and others. There is a grievance and suggestion box in front of the Principal's cubicle which students can use on a day to day basis. Students are free to keep their identity confidential if they want. They can meet the principal at any time to bring in a grievance or a suggestion.

The faculty and non-teaching staff is sensitized regarding students and stakeholders requirements.

Guardian and alumni meets are also effective forums to gather feedback on various aspects of college mechanism.

The occasional *Peer Review of Classes* to helps faculty to fine-tune their teaching skills.

The informal feedback system helps troubleshoot problems on a day to day basis more than the formal system which happens in intervals.

BEST PRACTICES OF THE COLLEGE:**A.****Title of the practice:** Compulsory Computer Literacy Programme**Goal:** The practice is aimed at empowering girl students with a mandatory delivery of computer knowledge thereby enhancing their skill and employability.**The Context:**

In the predominantly humanistic and social sciences curricula the issues of employable and human skills largely remains unaddressed. Skills are critical to getting employed and for social interventions. A basic knowledge in handling computers for example opens up the vast domain of internet and other resources. And Assam being slow off the block in ushering I.T revolution, it is imperative on educational institutions to embed computer education as a mandatory skill. The practice entails all first semester students are compulsorily admitted in the value-added CMOA computer course.

The Practice:

The target group for the compulsory computer learning programme – CMOA is semester one students. The fee of Rs. 2800/- is above and over the nominal admission fee. It was a burden since about 30-40 % of our students, coming as they due from socio-economically disadvantage sections, found hard to bear. Therefore we negotiated with C-DAC (A Govt. of India Concern under a department of Science and Technology) and brought the too about 55%. The fee now is Rs. 1500/- .

Even this fee is partly or fully relaxed for disadvantaged, physically challenged and academically bright students. The examination is conducted here but the question papers and certificate come from C-DAC, Pune (Maharastra).

We have engaged five qualified staff to teach the course. Besides there are other courses under C-DAC which are open to students of this college and girl students/ women outside the Intuition.

Evidence of success:

The basic idea behind the practise was to achieve total computer literacy so that it facilitates enhanced use of ICT component in teaching-learning. And we are by and large successful in this regards. The success of this practice is also evident in large number of students employed by corporations, MNCs, Sales houses and so on. Yet there are issues that we need to address. We need to ensure its an every enrolled students becomes computer literate.

Problems encountered and Resources Required:

We have no issues with financial or human resources. We have created a specious laboratory with more than 60 Computers supported by qualified faculty, online power backup and a 100 KVA genset.

- What makes us think is the considerable disadvantaged section who cannot often pay even the highly subsidised fee (collected in three instalments) and we have to write off the amount leading to financial loss.
- Added to this is the instalments relaxed to support socio-economically disadvantaged section
- The introduction semester system too impacted students opting for skill-based value added courses including compulsory computer literacy programme since the new system of study leaves little room for other things.

Title : Value Addition

Goal :

The value added Certificate courses are designed to add to the commotional U.G. course in Humanities and Social Sciences.

- ⇒ They are self-funded courses aimed at supplementing skills either absent or deficient in the curricular.
- ⇒ These courses are aimed at importing domain based skills (i.e. : domain -> Economics : Value addition -> Insurance & Scholarship, -> Montessori Method etc.

The Context :

Courses in the Humanities and Social Sciences do not embed employable and human skills. This is true to a large extent. Therefore inspired of gaud scholastic achievement students find it hard to get employment. An overwhelming majority of students, for example, lack communication skill in English. The Certificate course in Comm. Skills is a humble attempt at importing this skill for which we have a Digital Language Lab. Learning CDs, Movies and such other materials.

The Practice :

The practice courses are designed based on domains of study. Every Department is a domain for education and the department has designed the course. In this way the Dept. of English and Assamese run the communication skills course and so on.

- ⇒ Every student need to chose at least one value-added course. The fee for these course is extremely nominal (Rs. – 100) So, that every student can afford it. Only Beauty Care (Personal Grooming) course has a slightly higher fee structure.
- ⇒ A Student can take up more than are course without paying any extra fee.
- ⇒ Students are enrolled in these course at the time of admission
- ⇒ Resource person, scholars are invited on Contractual basis to teach Certificate course in Art and Craft.

Evidence of success :

Value added course are aimed at supplementing enhancing the skills of learners in different domains, Some programme like Art and Craft and Beauty Care (Personal Grooming) used to be quite popular.

Problems Encountered and Resources Required :

- ⇒ Inadequate physical space during class hours pushed the value-added courses late into afternoon. This makes students from rural areas. Who need to leave campus early. Hard to attend.
- ⇒ Introduction of Semester System too had a dampening import on these course since it very little time to devote to skill training.

Unless there is promotion for structuring skill component in the course curricular students will not be attracted to any enabling learning outside the given scholastic package. To put it another way students will remain examination oriented. This will present us from reaping the benefit of a huge demographic capital since students learn thing that become obsolete in the world outside.
