

Best Practices of the Institution

2016-17

Best Practice 1

Title: Waste Management in the Campus.

Objectives: Proper disposal of waste to keep the campus and the surrounding areas clean.

Context: In addition to the regular cleanliness management activities, the college authorities take stock of the situation from time to time and ensure that proper steps are taken to maintain a healthy environment.

The Practice:

- Dustbins are installed both inside and outside the campus. Both green and blue dustbins are purchased and instructions are written on them.
- Sweepers and cleaners are appointed according to the needs.
- Segregation of different types of waste is done for scientific disposal.

Evidence of Success:

Awareness is generated among the students and also the neighbourhood people.

Problems Encountered:

- Financial problems.
- Conflict with street vendors.

Best Practice 2

Basic computer Training to the Needy Students.

Objectives:

- To increase computer literacy among the poor students.
- Skill based training is emphasized on.

Context: Our faculty members regularly visit the neighbouring government schools and impart basic computer education among the needy ones.

Practice: 62 students got Basic Computer Certificate from C-Dac, M.N.C.B.M. in three months.

Evidence of Success: Awareness regarding skill-based education is generated among the poor children, who otherwise aren't able to get access to Computer Classes on their own.

Problems Encountered:

- Constraint of time.
- Computer facilities not adequately available in the schools.
- Hands on training is a difficulty with the limited facilities.
