

Best Practices of the Institution

2017-18

Best Practice 1

Title: Waste Management in the Campus.

Objectives: Proper disposal of waste in order to reduce the environment and health issues inside the Campus.

Context: For a healthy and hygiene atmosphere in and around the college premises, waste management is carried out. This includes the congenial environment inside the classroom, barren areas, fields inside the college Campus.

The Practice:

- The NSS used of the college had installed blue and green dustbin in the Campus.
- Reusing and recycling various substances like bottles, papers etc.
- Donation of used goods

Evidence of Success:

The students have learned to reuse and recycle materials as well as developed awareness regarding the causes of pollution.

Problems Encountered:

- Finding agencies for donation
- Financial problems.

Best Practice 2

Title: Social Awareness Program on health and hygiene.

Objectives: To create social awareness on health, hygiene and environmental issues among student and society.

Context: The college encompasses students coming from various backward areas of Nalbari. Most of the students as well as their stakeholders are unaware of various health and hygiene issues. This results in conducting programs on health & hygiene.

Practice:

- Regular health checkup is carried out in various villages of Nalbari district as well as in the college Campus.
- Awareness program with regard to health and hygiene are organized.

Evidence of Success: Awareness and knowledge is developed among students and other of the society regarding health and well being.

Problems Encountered:

- Problems in persuading people participation in the program.
- Insufficiency of fund
